KINO

(100min Feature Film)

OPENING

**The Peacock Lounge Film Festival,
6 Railway Arches, Viaduct Street, Huddersfield HD1 5DL**

Short Synopsis

Betty and Simon have grown bored with their lives. They embark upon an adventure. Using the internet, they hunt out extraordinary people. They come across KINO, a master filmmaker, with dangerous methods. Many of Kino's cast and crew never make it to the premiere. Snuff Par Excellence!

"For Kino, I tried to make a film that basks in all aspects of Guerrilla Film-making. I'm very proud of it."

Marco Zaffino

(Winner of Best Foreign Feature LA IFF 2002 for his debut feature film 'The Veranda')

Marco Zaffino is a Filmmaker and Photographer from Huddersfield and is proud to announce the intimate and **Exclusive Premiere** of **KINO** the 4th Feature film to come out of **MinstrelWallEye** stables.

Opening the Peacock Lounge Film Festival, in his home town of **Huddersfield** he will uncover a film that exposes many **Guerrilla Film-Making** Machinations while holding together a complex and contemporary thriller. For example, lighting is done by torchlight, the cameras are visible much of the time, the use of non actors is not covered up but part of the story-line, even the editor's breath can be heard. Yet it is all integral to KINO. It is a comment on Non dependent film-making and also the History of Cinema and Art on the whole. It is ambitious to the extreme but we hope you see the amazing accomplishments without the normal help and infrastructure that a Film receives.

"It's about the freedom to create , not compromise, and complete something you've put every ounce of energy into and yet not being so self-indulgent as to leave out the viewer. You can't do that when you're just pushing for ratings and a career at the studios." Marco Zaffino
